

"What did I learn in the course"?

- :|: Pruning trees and how to properly measure the amount needed to Pruned that tree. :|:
- :|: Learning the ways to design a garden by using a simple paper layout. :|:
- :|: Understanding how to how to label certain bugs that are harmful to each plant and how to deal with those bugs :|:

AT THE PRACTICUM I LEARNED.....

- I enjoy a quiet and well-planned environment
- I found that I work well when I plan a couple days ahead of time.
- Learning different types of plants how they affect the garden in small ways.
- Finding that I enjoy a bit of a challenge
- Learning how much I love bugs.

Fun fact
about
Ladybugs

:|: Bugs and the nature balance :|:

Did you know that
Ladybugs real
name is Ladybird
Beetle?

- In the course we took- we learned how bugs and nature will always be there in some way. No matter what you do there will always be a bug needed to keep that bug alive in some way. An example is how bees, ants and so many other bugs help spread pollination to each plant. Or how certain bugs help with pests.
- An example is how ladybugs or also known as ladybird bugs eat aphids.

THE TASKS I LIKED WERE

Cleaning the green
cough from any
weeds or harmful
plants that
may have seeded
there.

:|: I loved
challenges where I
am able to improve
myself overtime :|:

:|: I enjoyed looking
and questioning
how you would
improved a garden.
:|:

:|: Keeping myself
always on my toes
and pushing myself
has well :|:

A close-up photograph of a cat's face, focusing on its eyes and nose. The cat has light-colored fur and greenish-yellow eyes. A white speech bubble with a thin black outline is positioned over the cat's face, containing the text "The end :)". In the bottom right corner, there are several white, stylized arrow-like shapes pointing towards the right.

The end :)
